## \$1,000 MAY BE SAVED ON TOWN STREET WORK

Reconstruction of portions of S. Washington and E. Middle St. will cost \$1,000 less than anticipated, Highway Chairman Robert McCoy told the Gettysburg borough council at its meeting Monday evening in the engine house.

The base and subsurface for S. Washington St. from the Warner Hospital to Steinwehr Ave. has been completed and completion of the street will follow in the near future, McCoy said. In addition the sub-base of about half of the first block of E. Middle St. has been placed and work is expected to proceed rapidly in completing the two blocks of the street scheduled for rebuilding this summer.

McCoy said, "At the present time we still have \$5,300 in the state fund to be used toward this work. It looks like we will have to take only about \$1,000 from the general fund for the street work instead of the \$2,000 we had anticipated."

Reconstruction of E. Middle St. will also involve some work on S. Stratton St. at its intersection with E. Middle St., according to the report.

### MAY BUY TRUCK

A possibility that the town may purchase a truck with an enclosed cab for mosquito spraying was revealed in discussion on the "mosquito problem." Borough Engineer LeRoy H. Winebrenner said the employee who handles the spraying was off for about a week seeking other employment and as a result no spraying was done during the period. Winebrenner said the employee had sought the other work when he suffered "eye burn" from the spray, but now was willing to resume the job. Winebrenner said a mask and goggles are available.

### DEBRIS IN TIBER

Several councilmen reported large rocks and other debris in the Tiber. Winebrenner said the Tiber will be cleaned when street work is completed.

Council passed a motion ratifying the action of the safety committee last month in appointing John G. Hemler, Littlestown, as a borough police officer.

Mayor William G. Weaver was asked about use of part-time police at Lincoln Square during peak traffic period. He said the men who handled the traffic were not extra police but "traffic guards" and did not wear pistols or have badges while on duty. Asked about insurance coverage he said he felt that the men were borough employees "the same as anyone else" and would be covered by borough insurance. Weaver said the addition of Hemler to the police force did not provide sufficient manpower to handle the peak traffic periods and that he employed the "traffic guard" method of meeting the problem. ## First Trapped Miner Rescued

CHAMPAGNOLE, France (AP)—The first of nine miners trapped since July 27 in a limestone mine was brought safely to the surface today.

A metal rescue capsule rose slowly to the surface from a depth about 250 feet where the miners have waited to be freed.

They were trapped by a fall of rock, and rescue teams worked day and night to free them.

The first man out was Andre Jacques, 28.

A hot sun blazed down on the tree-studded mountainside where the lift derrick towered above the escape hatch drilled into the rocky ground.

Dark glasses were fitted over Jacques' eyes as he stepped from the rescue capsule into the sunlight after a week of gloom with only artificial lighting.

He was taken to a military ambulance which sped off toward a hospital.

In a statement prepared for athletic and school officials, the American Medical Association Committee on the Medical Aspects of Sports and the National Federation of State High School Athletic Associations said the selection of protective football equipment is a major factor in safeguarding the health of the athlete.

Specifically, the two groups recommended:

For the body—All pads should incorporate shock-absorbing material, and cover the intended area properly. The fit of the pants must assure effective positioning of the thigh and knee pads.

For the ankles and feet—All players should have their ankles routinely wrapped with nonelastic 2 1/2 to 3 inch wide bandage. Cleats should be kept short; rubber heels without cleats may be preferred.

The basic guiding principles to the selection of protective equipment for football or other sports for any age group are:

- the best available equipment should be purchased.
- equipment should be carefully fitted.
- equipment should be conscientiously maintained.
- equipment should be worn at all appropriate times, in practice or in games.

The statement added two notes of caution.

"Inferior equipment gives the wearer a false sense of security and puts him in jeopardy of serious injury."

"Coaching that utilizes protective equipment as a weapon is indefensible and can produce injury to both the aggressor and the opponent."

The AMA committee added (Continued On Page 2)

## CONGRESS TO CONSIDER TWO MAJOR BILLS

WASHINGTON (AP) — A Congress racing to adjourn in about three weeks faces two big hurdles this week, a controversial antipoverty measure and the foreign aid authorization bill.

The House has set aside three days to work on a \$962-million program aimed at breaking the poverty cycle for millions of Americans, and the Senate may take all week on foreign aid.

Both houses will find time to act on other bills, too, including pay raise legislation for federal workers and the armed services, and a bill aimed at protecting investors against stock frauds.

### CONVENTION AUG. 24

Congressional leaders hope to be able to close up shop before the Democratic National Convention opens Aug. 24 in Atlantic City, N.J., and much depends on how things go this week.

President Johnson is banking heavily on passage of the antipoverty bill, officially known as the Economic Opportunity Act, and Republicans are equally determined to defeat it.

In hopes of speeding action, House leaders plan to shape the bill as close as possible to one passed earlier by the Senate—thus avoiding the necessity of having a joint conference to agree on a bill, and then another round of voting.

### EXPECT CLOSE VICTORY

Majority Leader Carl Albert of Oklahoma told the House the bill would be taken up Wednesday and a final vote would probably come on Friday. The leadership is looking for a close victory.

Senate Republican Leader Everett M. Dirksen of Illinois predicted "spirited tussling" in the Senate over the foreign aid bill. He said he expects many additional amendments to be offered beyond those already on file.

## DRESSES FOR DINNER WILL HIT MIDCALE

By LOUISE HICKMAN  
PARIS (AP)—Midcale-length dresses for dinner wear were the biggest fashion news from Yves Saint-Laurent's fall and winters collection today.

Saint-Laurent's presentation matched midcale theater coats shown earlier by Pierre Cardin. Viewers also were startled to see a similarity to fashions shown by Chanel without the pants. Both featured simple suits with a "sweatery" look and tiered skirts with wraps and panels.

Saint Laurent even put a flower in the hair, as Chanel did. Except for the midcale dinner dresses, Saint-Laurent had absolutely no surprises. Evening gowns were standard shifts in jeweled satin or lame.

### SET IN SLEEVES

Suit jackets had soft natural shoulders, with set-in sleeves. Sleeves were slashed and buttoned at the wrist.

The jackets were soft and supple like a cardigan sweater, and fit in much the same way — rather straight, but flowing along the body in front. They were hip-length. Sweater-like, the bottom button was often left undone.

Dark print silk scarves often filled in the fairly buttoned-up necklines. There were lots of close-spaced, double-breasted buttonings.

Slim suit skirts were most often double-tiered, with the top tier also wrapped or paneled.

Saint-Laurent used many smoky colors and dark bias plaids. Soft wool boucles were featured.

### SLIM COATS

Coats were slim, buttoned-up and had thin leather ribbon belts.

Dresses under coats, and here Saint-Laurent did not look like Chanel, had round necks, short sleeves, and wide, crushed belts. Often they were tunic-tied.

Saint-Laurent showed fur hems, borders, cuffs and collars just like everyone else in Paris these days, but with more control.

A sample of such helmets failed to withstand the lowest impact level of standard tests. In addition, edges of these helmets were found to be sufficiently sharp to cause lacerations.

Moreover, the suspension or internal padding provided literally no protection on impact. Helmets to be used in actual play should possess the same protective qualities as those for varsity football. Otherwise, the safety of the wearer can be in serious jeopardy.

## TREE CUTTERS STOPPED BY ANGRY MOMS

ELMONT, N.Y. (AP)—Housewives pushing baby carriages have routed the tree choppers in the first skirmish over the shade trees of Evans Avenue.

Town officials of this Long Island community want to widen the streets; lined with oaks and elms that stand between the sidewalks and the pavement.

The women of Elmont, many of them refugees from the concrete canyons of New York City, want to preserve the greenery.

They moved out in force Monday.

Mrs. Charles Spanier stationed herself under a condemned tree, looked up at a workman and said:

**WORKMAN QUITS**

"If you cut off one more branch, you'll have to drop it on my head to get rid of it."

The workman climbed down.

Pushing their infants in front of them, a dozen housewives led by Mrs. Hope Fox surrounded a truck that was to haul away the dismembered trees. They clogged Evans Avenue and, after an hour, forced the workmen to give up for the day.

Town officials were not available for comment.

"I have nothing against drainage pipes or new curbing," said Mrs. Fox. "It's just that we moved out to the suburbs because we like the country atmosphere, which is rapidly disappearing."

**WANTED TREES**

"This whole thing started months ago, when we first heard that the streets in a 22-block area south of the Hempstead Turnpike were going to be widened."

"We understood then that some of the trees would have to go, but there would be enough room between the sidewalk and the curb to plant new ones if we wanted to. But, when the man came around last Friday to mark the trees that were to be cut, he marked all but four in the whole area and told us that the curbs would be right next to the sidewalk."

"Solid cement! Imagine that!"

## COURT AFFIRMS EXTRADITION IN ABORTION

TRENTON, N. J. (AP)—The appellate division of Superior Court has affirmed a lower court ruling ordering the extradition of a Trenton man to Pennsylvania to face trial on a charge of being an accessory to an abortion.

Elijah Jones, also known as Bishop Jones, has been charged with being an accessory to an abortion in North Hills, Pa., involving a 17-year-old girl.

Jones had asked the appellate court to annul an extradition order handed down by the Mercer County court on grounds there had been a discrepancy in the dates.

**APPLIES TO ONE DATE**

The appellate court, in a five-page opinion written by Judge Gerald T. Foley, said after the hearing testimony that Jones was in Pennsylvania on April 10, 1961, when the alleged offense occurred. The opinion said the discrepancy was due to a typographical error that does not affect the extradition.

However, the appellate bench said the extradition applies only to the alleged crime of April 10, not to two other dates which Pennsylvania also had sought Jones for on a similar charge. Foley said the Mercer County court ruled the defendant was not in Pennsylvania on the other days.

**FACES SUPPORT COURT**

Samuel E. Green, 39, Gettysburg R. 2, was arrested Saturday by Constable Fred Swisher on a charge of desertion and nonsupport placed before Justice of the Peace Robert P. Snyder.

## SEE NO LONG PROFIT PERIOD IN BROILERS

By OVID A. MARTIN

Associated Press Farm Writer

WASHINGTON (AP)—The Agriculture Department says it foresees no prolonged periods of profit-making by the chicken broiler industry.

Recent patterns of this industry indicate, the department says, that the profit periods—when prices received for broilers are above production costs—are not likely to last more than three or four consecutive months.

Operated on a mass-production and integrated basis, the industry is capable of changing its production patterns on short notices. Herein lies the reason why profit periods are expected to be short in character.

A department report explains that when prices of broilers are favorable, expansion in production is made quickly. The result usually is an increase in output that turns prices downward again. The low prices result in production curtailments followed by favorable prices, then a new period of overproduction and low prices.

Competition is intense and many concerns are reluctant to curtail output very much less they lose customers to competitors.

Much of the production is financed by feed companies and others who contract with producers.

Similar ups and downs take place in the production of beef cattle and hogs. But it takes much longer to make the shifts.

**MAYOR REPORTS**

The \$5,416.88 listed as a "miscellaneous expenditures" during the month represents the amount turned over to the town by the Commonwealth for the police pension fund and placed in that fund after receipt in accordance with the law.

Mayor Weaver's report on his collections showed \$1,122.50 came from digging permits, \$375 from meter fines, \$14.50 from rental of parking space, \$50 from a peddler's license, and \$18.50 miscellaneous.

The report of Chief of Police Jack Bartlett showed the officers made 11 criminal and 33 traffic arrests during the month, investigated eight accidents and 273 complaints, provided 15 escort sand 58 assists to other departments. Of six wallets reported lost, three were found; of four bicycles reported stolen, one was recovered; two persons were reported missing and both found. One car was stolen and was not located during the month.

Maddox scored a direct hit on one of the PT boats with a five-inch gun. The Communist craft later was strafed by aircraft from the carrier U.S.S. Ticonderoga and left burning in the water. The Maddox was not damaged and no American sailors were hurt.

U.S. Defense and State Department officials believe the PT boat sank. A reconnaissance flight over the area, in international waters 30 miles off North Viet Nam, found no trace of the craft.

**SHIP IN FLAMES**

Adm. U.S. Grant Sharp, top U.S. military commander in the Pacific, said today. "The last time we saw it, it was in flames. I don't know if it sank but the chances are pretty good it did." He said there were no North Vietnamese casualties "that we know of, but there is no way of telling."

The State Department described the engagement as an "unprovoked attack" and said it was sending a protest to the Communist North Vietnamese government.

Department spokesmen rejected North Vietnamese charges that American planes and ships had attacked its territory in recent days.

Secretary of State Dean Rusk and Secretary of Defense Robert S. McNamara traveled to Capitol Hill to bring senate leaders up to date on the developments.

Losses of fractions to a point, or so prevailed among most key stocks.

Analysts said the motors were upset by uncertainty in regard to the selection of possible "targets" by the United Auto Workers in labor contract negotiations.

## WILL BORROW \$4.5 MILLION FOR PLAN 70

HARRISBURG (AP) — The Scranton administration plans to borrow \$4.5 million to finance the first phase of Project 70, the state's \$70 million long-range conservation and recreation program.

Dr. Maurice K. Goddard, secretary of forests and waters, said the initial outlay would be used for land acquisitions in fiscal 1964-65 for these priority projects:

Ohio Pyle State Park in southern Fayette County, Tyler Estate in Southern Bucks County near Newtown, along the west branch of Codorus Creek in Southwestern York County, also Sandy Creek in Northern Mercer County and along Marsh Creek in Chester County.

**2-YEAR BASIS**

The decision to borrow the money on a two-year basis was made Monday at a conference attended by Gov. Scranton, state Treasurer Grace M. Sloan, Auditor Gen. Thomas V. Minehart, and Budget Secretary Martin H. Brackbill.

Brackbill said the loan would be repaid from the sale of bonds authorized by a vote of the people and an act of the legislature.

Mrs. Sloan said she would send letters within the next 10 days to 10 banks in Pennsylvania asking them to submit sealed bids for the borrowing.

The conference was the only formal appointment on Scranton's schedule as he returned to the capital for the first full day in the office since his unsuccessful bid for the Republican presidential nomination.

**Fast Express Leaves Track:**  
Running late and coming down the mountain at a speed calculated to make up lost time, the express from Pittsburgh to Baltimore, due in Gettysburg at 5:40, jumped the track near Gladhill station shortly after five o'clock this morning. All but two of the cars left the rails. They stayed upright and none was hurt. Whether a defective road bed, track, or truck caused the wreck is not known and no statement has been given by the railroad people. The railroad for many miles lies along the side of the mountain with a steep incline on the one side and a sheer drop on the other. Fortunately the train left the rails at Donohue Cut and a horrible calamity which would doubtless have occurred at almost any other place on the mountain was averted. The trip down the mountain, mile after mile, was being run at great speed. Suddenly the heavy driving wheels of the engine left the rails about a quarter of a mile east of Gladhill and went bumping over the ties, tearing up the road bed as they went. The tender followed and a few feet farther the combination car jumped the rails. Two express cars followed and before the engineer could bring the train to a stop the front truck of one of the day coaches was also off. Puffing and snorting the big engine finally came to a standstill. Only the sleeping cars had stayed on the track.

**Today's Talk**

THE GOOD

Emerson once said that "Everything good is on the highway." By this I take it to mean that right before our eyes — no matter where we go — there is beauty, information, silent knowledge and something for us to think about.

The writer of good fiction writes truths or it does not grip or convince. His realm is the highway of life. His business is to see and to write of the good. There is much more good in the world than bad, else the world would have crumbled long ago. There is some good everywhere. The bad is only in spots. When the Creator finished the making of this world it is written that he looked about Him and called it "good."

Good is a broad term, but each of us may plant it as deep as we will! It is better to look for the good in things than the bad, for you will always be sure of finding what you look for. The bad is elusive and hides. The good is unafraid and walks upon the broad highway, as Emerson suggests.

I have always preferred the plan of trusting people and believing them good until they have proved themselves bad, rather than the reverse. We wouldn't get much happiness out of life if we mistrusted everyone until proven worthy. The good is the beautiful, the useful, and the uplifting. I like to associate with people who see the good in everything and in others, and I like to tie to such as friends.

Beware of the person who delights in gossip. The chances are ten to one that such a person will not broadcast the good in you! "Cleave to that which is good" is a good motto.

Tomorrow's subject: "It's How You Take It."

DOGS AND MEN

When dogs have nothing else to do And whether it be night or day, The thoroughbreds and mongrels, too, Stretch out and sleep the time away.

Not having customs to obey And certain hours which they must fill, Dogs promptly put the world away

When they have idle time to kill. Beyond their strength they never go. They're wise enough their rest to take.

To please some other dogs they know They needn't keep themselves awake.

I watch my dog upon the floor Indifferent to our idle chat And think, the while I hear him snore, I wish that I could sleep like that.

**Route is Fixed for All Time:**  
The route of the Lincoln Highway from coast to coast, through Gettysburg, has been fixed for all time and no change will be made. In his reply to President Woodrow Wilson's request that the Lincoln Highway be extended from Philadelphia to Washington and from thence through Frederick to Gettysburg, President Henry B. Joy, president of the Lincoln Highway Association, Detroit, Mich., makes this very plain: "The Lincoln Way is the shortest, most direct and practical route consistent with the topography of the country from New York on the Atlantic to San Francisco on the Pacific, and to change from that basic principle and extend its length by devious windings from city to city, or from point of interest to point of interest would insure its failure as a permanent useful Memorial Way. It is not within the power of our association to alter the already painstakingly selected and actually adopted route."

**Vote Fatter Pay For Uncle Sam's Workers**

**WASHINGTON (AP)** — Practically all of Uncle Sam's employees — from Congress members to postmen and servicemen — are assured of fatter pay checks.

Congress approved Monday, and President Johnson is expected to sign quickly, a \$207 million pay raise for the military.

And Senate and House conferees reached agreement on a \$556 million increase for the 1.7 million classified civil service and postal workers, and top government officials, Congress members and federal judges.

The House plans to act today on the civil pay bill, which carries annual raises of \$7,500 for congressmen and \$10,000 for Cabinet officials. The Senate was expected to act later in the day or Wednesday.

The increases for the armed forces, to take effect the first of next month, will be their second in a year as part of the new policy of reviewing servicemen's pay scales every year.

The House Armed Services Committee told the House it had omitted boosts for draftees and newly enlisted men because they are in training status and because they will receive three or four increases in their first 11 months of service due to promotions.

**BACK TO JULY**  
The pay bill agreed on by Senate and House conferees would be retroactive to the first pay period after July 1 for all but the members of Congress and high-level congressional employees. They must wait until next January for their raises.

The President has strongly backed this measure, contending it is essential to retain key personnel in government.

The bill carries these annual increases:

\$8,000 for the vice president and speaker of the House, which would raise them to \$43,000.

\$7,500 for members of Congress, to \$30,000.

**OTHER BOOSTS**  
10,000 for Cabinet officers, to \$35,000.

Up to \$7,000 for other government executives, with a scale of \$26,000 to \$30,000.

\$4,500 for the nine Supreme Court justices, to \$40,000 for the chief justice and \$39,500 for the others, and \$7,500 for all other federal judges, including a scale of \$30,000 for district judges and \$33,000 for those on the Court of Appeals.

An average 4.3 per cent for \$11 million classified workers, with a range of 2.7 to 22.5 per cent. The top level in civil service would go from \$20,000 to \$24,500.

An average of 5.6 per cent for 600,000 postal employees.

**HEAT CHOKES TEXAS CROPS AND PASTURES**

**By THE ASSOCIATED PRESS**  
Crops and pastures were in the critical stage in Texas today as the long, dry hot spell continued.

In other areas, stifling heat and choking humidity added up to high temperature records for the date.

Municipal water supplies dwindled in parts of Texas and Louisiana. The only spots escaping the long dry spell and the blistering hot weather were around the Texas coastal bend.

Wichita, Kan., reported a high temperature of 108 degrees for a record for Aug. 3. Chicago also experienced the hottest Aug. 3 on record with an average temperature of 87 degrees. Chicago's high of 98 equalled the record for the date set Aug. 3, 1944.

**MERCURY HITS 110**  
The mercury climbed to 110 degrees in Hutchinson, Kan., and Hennessey, Okla., as the central part of the nation remained in the grip of the heat wave.

New high temperature record executives, with a scale of \$26,000 to \$30,000.

\$4,500 for the nine Supreme Court justices, to \$40,000 for the chief justice and \$39,500 for the others, and \$7,500 for all other federal judges, including a scale of \$30,000 for district judges and \$33,000 for those on the Court of Appeals.

An average 4.3 per cent for \$11 million classified workers, with a range of 2.7 to 22.5 per cent. The top level in civil service would go from \$20,000 to \$24,500.

**GOP Candidate To Ignore Ticket**

**NEW YORK (AP)** — Rep. John V. Lindsay of New York's 17th Congressional District says he'll seek a fourth term as a "Republican candidate but "without reference to the national ticket."

Lindsay, 42, said Monday supporters of Sen. Barry Goldwater, the Republican presidential nominee, are trying to defeat him by backing Kieran O'Doherty, the Conservative party nominee in the 17th, Manhattan's "silk stocking" district.

"It should be clear that I have no choice but run in this election on my own record without reference to the national ticket," said Lindsay.

**LISBON, Portugal (AP)** — An electric locomotive plowed into the rear of a passenger train near Santarem early Monday. Railway officials said 35 persons were hurt.

It was the third mishap in eight days on the privately owned Portuguese Railway Co. Eighty-nine persons were killed in the derailment of a crowded passenger car near Oporto July 26. One person was hurt in a similar accident near Guimaraes Sunday.

ords for Aug. 3 included: St. Louis, 104; Springfield, Mo., 102; Louisville, Ky., 101; Grand Rapids, Mich., 100, and Muskegon, Mich., 99.

Not all the records were high ones. A low of 55 set a record for Aug. 4 in Philadelphia. Connecticut had a record low of 49 compared with the old mark of 51 in 1956.

**TORNADO HITS ELGIN**  
An isolated tornado touched down Monday at Elgin, Ill., northwest of Chicago, and Logansport, Ind., was swept by wind-driven rain measuring 1.90 inches. More seasonable conditions prevail today in the Northeast, the extreme North and the northwestern parts of the nation, while precipitation was heavy in the east-central section.

For this play only, Norman Rice, one of the favorites of last season, returns to the Gettysburg stage to play the role of Vladimir, a principal waiter for Godot. Richard K. Olsen assumes the role of Estragon. Charles Plesse plays the part of Pozzo in the production.

Completing the cast are Carl Gamba in the role of Pozzo's slave, Lucky, and David Pickering in the role of the boy.

A tree, a low mound, and a couple of stumps comprise the entire set.

**CALLED TRAGICOMEDY**  
The play, which is described as a tragicomedy, has two men, apparently derelicts, as the chief focus of the action. Estragon and Vladimir, or Gogo and Didi, as they call each other, are waiting for Godot, who at first seems to be simply a figment of their imaginations but who later assumes the possibility of a personality.

"Waiting for Godot," which has entertained audiences and puzzled them at the same time, has also left critics in disagreement about the author's meaning and the effectiveness of the portrayal.

Certain time is at 8:30 p.m. Wednesday through Saturday.

Louisiana State has won the Southeastern Conference track title five times in the last seven years.

## BONUS BABY BEATS GIANTS FOR PIRATES

By MIKE RATHET

Associated Press Sports Writer

Bob Bailey, highly touted youngster who dragged through a poor rookie season under the pressure of a whopping bonus, is beginning to pay dividends.

A \$150,000 bonus baby who batted a dismal .228 last season, Bailey continued his heavy hitting Monday night by slamming a key triple in the eighth inning and a game-winning single in the ninth that gave the Pittsburgh Pirates a 3-2 victory over the San Francisco Giants.

The two hits lifted Bailey's average to .304 and boosted the Pirates into third place in the tight National League pennant struggle, 4½ games behind the front-running Philadelphia Phillies and 2½ lengths behind the Giants.

A vital offensive weapon in the Pirates' bid to duplicate their 1960 pennant, Bailey has always spoken freely about the pressure applied by the gigantic bonus and his meager accomplishments as a rookie last year when the Pirates nosedived to eighth place.

Bailey's key hits dropped the Giants two games behind the Phillies, who were rained out of a game against the Los Angeles Dodgers.

Only two other games were scheduled, both in the American League. Baltimore rode Milt Pappas' shutout pitching to a 7-0 victory over the Los Angeles Angels and to within one percentage point of the first-place New York Yankees. And Cleveland defeated Washington 4-2.

**HAD 2-0 LEAD**

Jose Pagan was involved in both San Francisco runs as the Giants built a 2-0 lead. He beat out a bunt in the fifth inning and eventually scored on Duke Snider's single. In the sixth he drove in Tom Haller, who had doubled, with a sacrifice fly.

Bailey then got the Pirates rolling against Bob Bolin, who had a five-hit shutout through seven innings. After Manny Mota stroked a pinch-hit double with one out in the eighth, Bailey slammed his triple and came home with the tying run on Bill Virdon's single.

In the ninth, after Bill Mazerowski and Dick Schofield had singled, Bailey came up with two out and poked a grounder up the middle for the clincher.

**BLANKS ANGELS**

Pappas, bringing his record to 10-5, blanked the Angels on eight hits and did not allow a runner past second base. While he was shutting out Los Angeles for the third time this season, the Orioles pounded Bo Belinsky and four successors for 13 hits.

Dick Brown collected three hits for Baltimore while Brooks Robinson and Sam Bowens each drove in two runs with a pair of hits.

The Indians broke a 2-2 tie against the Senators in the fourth when Chico Salmon doubled, Vic Davallito beat out an infield hit and Billy Moran followed with a sacrifice fly. Davallito and Dick Howser each collected three hits in a 14-hit attack.

Dick Donovan, 6-7, got the victory with Luis Tiant's relief help.

## Ailing Lefty Beats Phillies

**PHILADELPHIA (AP)** — "I woke up tired and listless. My muscles ached and I was feverish. I wasn't certain I could pitch—but the skipper wanted a lefthander."

Those are not the sounds of a man making excuses for losing a game.

It's the talk of a winner—Larry Miller, a 27-year-old Los Angeles Dodger rookie southpaw who checked the Philadelphia Phillies on seven hits Sunday in a 6-1 Dodger victory.

The sage skipper was Walt Alston, who apparently knew of the trouble the league-leading Phillies have been having with southpaws lately. A sick lefty was better than a healthy right-hander, Alston gambled—and won.

Miller couldn't explain the lefty "jinx" over the Phillies.

## IDLE PHILLIES INCREASE LEAD

**PHILADELPHIA (AP)** — For the Phillies, "Blue Monday" was a bright day.

They sat around and did nothing—and increased their national league lead to a full two games over the San Francisco Giants.

Their scheduled night game with Los Angeles Dodgers was rained out—and it meant they didn't have to face an old nemesis, Sandy Koufax. At least not for a while.

The Dodgers ace pitcher had beaten the Phillies eight straight times since Sept. 27, 1961. The Phils have been having enough trouble with lefthanders lately and weren't exactly upset over the fact that they didn't have to face the best in the league.

Meanwhile, the second-place Giants were edged by the Pittsburgh Pirates, 3-2, Monday night.

And, all the idle Phillies will have to do today is watch the outcome of the Giants-New York Mets game.

The Phils resume play at Connie Mack Stadium Wednesday with a two-night doubleheader against the Houston Colts.

Righthanders Jim Bunning and Ray Culp are expected to go for the league-leaders and Ken Johnson and Bob Bruce for the Colts.

**2 Quarter Horses Struck By Auto**  
Two quarter horses owned by Ray Franklin Glass and worth \$600 each were badly injured when struck by a car at 8:30 p.m. Friday at the side of the Toms Creek bridge on U. S. Rt. 15 south of Emmitsburg.

The riders of the horses, Paul Bernard Stouter, 25, Emmitsburg, R. 1, and James Anthony Willis, Jr., 21, Fairfield, were also slightly injured and were taken to a doctor in Emmitsburg for treatment, state police said.

The accident happened when a 1967 Ford station wagon, driven south on U. S. Route 15 by Francis Edward Kreitz, 35, Emmitsburg, R. 2, hit the horses in the rear while they were attempting to reach a one-foot shoulder of the road beyond the bridge.

One of the horses landed on the hood of the station wagon and broke the windshield of the vehicle. This horse was severely injured, Maryland Trooper Crutcher reported.

Idaho also has a primary, with Democratic incumbent Reps. Ralph Harding and Compton I. White unopposed for renomination.

## RINGO EAGER TO MAKE GOOD WITH EAGLES

By JACK HAND

Associated Press Sports Writer

HERSHEY, Pa. (AP) — Jim Ringo was the center at Green Bay for 11 long years — some lean, some fat. When Vince Lombardi traded him to Philadelphia during the winter he was shaken.

Like most Packer veterans, Jim thought the return of Paul Hornung might mean another title. Instead, he was going to a club that finished last two years in a row.

The shock has worn off now. The 32-year-old ex-Packer is anxious to prove himself against the second great challenge of his career.

"Sure, I was shocked at the deal," said Ringo at the Eagles' training camp. "I didn't think Green Bay was in a position to make such a deal."

"Well, were they in a position to make it?" Ringo was asked. "You'll have to ask Mr. Lombardi."

**PLAYED 126 GAMES**  
Ringo said the first big challenge came when he entered the National Football League in 1953. There were new challenges every time the Packers made a coaching change. But Ringo had played 126 consecutive games.

"Now, there is the present situation," said Ringo. "Mr. Lombardi indicated maybe I couldn't maintain myself as a solid athlete. I am out to prove I am just as good as I was at Green Bay."

How did Ringo rate the Packers' chances?

**HAVE MATERIAL**  
"They have the material to win it," he said. "Whether the spirit is there or not, I don't know. They have made a lot of changes. Lew Carpenter left to go in the coaching business. John Roach and Bill Forester retired. Ken Iman, Earl Gros and I were traded. In my opinion, Gros is every bit as good as Jim Taylor. His only problem is inexperience."

"I'll say one thing about Paul Hornung. He is the type of individual to rise to a situation. He realizes the challenge he faces. I am sure I, and many others, will be pulling for him to make it."

Joe Kuharich, new coach of the Eagles, is excited about Ringo's spirit and leadership quality. He has fitted into the club as a key man on the offensive line. If the Eagles surprise people, Ringo will be in the thick of it.

**Eagles Place Four Players On Waivers**  
HERSHEY, Pa. (AP) — The Philadelphia Eagles of the National Football League have placed four players on waivers cutting their roster to 56 players.

Placed on waivers Monday were Mike Woulfe, second-year middle linebacker, and three rookies. The first-year men were Bob Dickerson, an end from Beuhne-Cookman; Arnie Erizzi, Maryland defensive back; and Tony Lombardo, a back with no college experience.

The roster now includes 53 players here, plus Jack Concannon, who is with the college all-stars, and Howard Keys and Terry Kosens, both out with injuries.

**100 Trucks Move Official Records**  
MECHANICSBURG, Pa. (AP) — Some four million pounds of official government records are on their way to the U. S. Naval Supply Depot at Mechanicsburg. The records are being transferred in about 100 truckloads from Cameron, Va.

The Federal Records Center, a tenant activity at the depot, has been designated as the overflow depository for the large collection of records in Washington, D. C. area.

William J. Port, manager of the Federal Records Center, said the growth "will mean the addition of a few more employees" at Mechanicsburg.

"Exactly how many will be determined after firm estimates are made on the volume, Port said.

The total includes 44 days of racing at Meadows, a completed 50 day meeting by Liberty Bell Racing Association and 25 days of racing by the William Penn Racing Association, which uses Liberty Bell's track in Philadelphia.

## BAD BOYS OF AUSSIES NOW IN GOOD FAVOR

By THE ASSOCIATED PRESS

Roy Emerson and Fred Stolle, tagged with a "bad boy" label by the Australian tennis brass, now are back in favor; solidly, thoroughly and completely back in the good graces.

Winning does it. The duo swept Mexico's best 4-1 in Davis Cup American Zone semifinals Monday and have only two more steps to take before meeting the United States in the Challenge Round, climax to the Aussies' drive to recapture the cup they had considered private property until the U.S. upset last year.

Emerson and Stolle, among the player suspended by Australia after they had bolted a tourney there to play abroad, won the final singles matches in Mexico City in straight set Monday, beating Antonio Palafox and Rafael Osuna.

**CLINCHES MEET**  
Stolle, who lost to Osuna in a singles match Saturday, clinched the meet for Australia when he scored a surprisingly easy 6-3, 6-2, 6-4 triumph over Mexican national champion Palafox.

That made the best of five series 3-1 and Emerson's match with Osuna was academic. Emerson won 6-3, 6-4, 11-9.

The victory puts the Australians into the American Zone finals against Chile, considered a much weaker opponent than Mexico. The match is scheduled in Minneapolis Aug. 14-16.

**Elks Golf Play Delayed By Rain**  
Three inches of rain which fell Monday at Latrobe forced postponement of the opening of the Elks junior golf tournament which is part of the Pennsylvania Elks state youth program of which William Kuhn, Gettysburg, is state chairman.

Officials were hopeful the flooded course would be in condition for play today when 27 holes, instead of 36 as originally planned, were to be played by the contestants. There were 127 registered for play Monday, representing 50 lodges in the state.

Bobby Britcher, winner of the local tournament, and Gary Hartman are representing the Gettysburg lodge. Hartman replaced "Bo" Davies who was unable to compete.

Mr. and Mrs. Jacob Britcher and Atty. and Mrs. Eugene Hartman are in Latrobe with their sons.

**Eastern League**  
By THE ASSOCIATED PRESS

It's sometimes the extra things that win a ballgame and for the Springfield Giants Monday night it was the extra base hits.

The Giants, with six extra base blows in their eight-hit total, defeated the Williamsport Mets, 4-1 to widen their Eastern League lead to five games over the second-place Reading Red Sox.

The Sox were rained out of their game with the York White Roses and the Elmira Pioneers and Charleston Indians were idle.

Springfield, though out-hit by the Mets, 10 to 8, made the most of four doubles and two triples to record the victory for Fran Kasheha, his 12th win against four losses.

The Giants broke a 1-1 tie in the fifth inning, when Denny Sommers walked, came around to third on Larry Edmondson's double and scored on a single by Dick Pawlow. They scored again in the sixth on a double, a wild pitch and a sacrifice fly, and put the icing on the cake with another in the eighth, on a triple by Jim McClain and a double by Frank Johnson.

Carl Nelson took the loss for the Mets, his fifth defeat in 11 decisions.

**BLOOMSBURG, Pa. (AP)** — Thomas Rickmers, 22, of Bloomsburg, died Monday of injuries sustained late Sunday night when he was struck and killed by an automobile on Route 11, about two miles east of Bloomsburg, police reported. The car did not stop, police said.

## OHIO STATER DRILLING ON FIELD GOALS

CHICAGO (AP) — During the College All-Star drills when big strong men battered each other in preparation for Friday night's game against the Chicago Bears, one big, strong man played a relatively lonely role.

Dick Van Raaphorst of Ohio State took no part in the muscle vs. muscle scrimmages. If it hadn't been for his football uniform, Van Raaphorst would have appeared to be a stranger to the practice sessions.

Over and over again Van Raaphorst practiced what he does best — kicking field goals. And if the All-Stars defeat the Bears in Soldier Field, the booting Buckeye might provide the margin of victory.

**WAS TOP KICKER**  
Van Raaphorst, a 21-year-old 6-11, 220-pounder, was one of the top field goal kickers in college ranks last season. He set a Big Ten record with six goals in conference competition and eight for the year. He boots them long and he boots them short.

Because of the tremendous defense the Bears are expected to throw at the All-Stars, Van Raaphorst should have plenty of chances to try his specialty.

The All-Stars will find the going rough when they get into Bear territory and the Bears' secondary has no intention of allowing All-Star quarterbacks to throw at the All-Stars. Van Raaphorst will be called upon to attempt field goals.

If the big guy is reasonably successful, he could provide the All-Stars with the necessary points to upset the Bears.

**Reject Plea For Cage Franchise**  
ALLENTOWN, Pa. (AP) — Directors of the Eastern Professional Basketball League have rejected a franchise application from Cherry Hill, N. J. at a league meeting.

Directors, who also announced the 1964-65 schedule, said on Monday night a league rule for bids granting a franchise to a community within 15 miles of an existing league franchise, Camden, N. J., a member of the league, is less than that distance from Cherry Hill.

The league will open play this season on Nov. 14. Wilmington will meet Scranton and Trenton will play Wilkes-Barre. Other opening games: Nov. 15 Allentown at Wilmington, Wilkes-Barre at Camden and Scranton at Trenton. Sunbury will play at Allentown the following Saturday.

## Cornell Coed Has Unique Summer Job On Thruway

By DON WATERS

ALBANY, N.Y. (AP) — There are 26 restaurants along the New York State Thruway and Patricia Ann (Trish) Lamb figures that she has visited each of them at least 10 times since June 11.

It's not that the 20-year-old Cornell University coed is so fond of eating. The visits are required by her unique summer-time job.

Trish is spending her summer as a \$100-a-week roving restaurant inspector for the Thruway Authority. And she is the only woman on the agency's 12-member inspection staff.

Her duties include scrutinizing the coffee shops, dining rooms, cafeterias, kitchens, food, service, garbage buildings, women's rest rooms, parking lots and landscaping of the franchised service areas along the 559-mile toll road system.

### TOOLS OF TRADE

The tools of her trade are a keen eye and a pad of inspection forms, on which she checks 17 items as satisfactory or unsatisfactory. She turns in the reports to Thruway headquarters each week.

Trish inspects the quality and quantity of the food, as well as the conditions under which it is prepared and served. This requires some taste tests, of course.

But the brunette, who stands six feet, also is keeping a close watch on her figure.

"I haven't gained an ounce," she said proudly.

But she won't reveal her weight.

Trish goes on the road for five days at a time, stopping each night at motels near the Thruway. She figures she has clocked nearly 10,000 miles in her official Thruway car since starting work six weeks ago.

### VISITS KNOWN

Trish spends anywhere from 10 minutes for a spot check to 4 hours for a full-dress inspection. Her visits usually are made known in advance and she tries to arrange them for peak business hours to see whether service-area employees do a good job when hurried.

Trish was selected for the job, partly because she is a woman and because of her special background.

Her parents, Mr. and Mrs. Norman Lamb, operated a restaurant for several years at Bolton Landing, on Lake George, and she had first-hand experience as a bus girl, waitress, hostess and assistant manager. At Cornell, where she will be a senior in the fall, she is studying in the school of hotel administration.

## HIGH-STYLE COMEDY IS TV FEATURE

By CYNTHIA LOWRY

AP Television-Radio Writer

HOLLYWOOD (AP) — After a couple of years of frenzied but futile effort to duplicate the success of "The Beverly Hillbillies," the specialists who dream up formats for television series seem to have decided it can't be done. Next season, at least, the new comedy programs are getting as far away as possible from thigh-slapping, country-style humor.

Within this new area of well-tailored, sophisticated heroes and high-style comedy is ABC's forthcoming "Valentine's Day," which this recent set visitor would classify as a direct descendant from "Burke's Law" and the almost forgotten "Tab Hunter Show," with Mack Sennett as a remote ancestor.

### HERO IS EDITOR

Our hero — Valentine — is a glossy young book editor who has a — hopefully — unending series of funny adventures through his contacts with authors of what somebody in publishing dubbed "non-books" — those written by famous or infamous personalities or their ghost-writers, or by any persons who are not professional writers. The works are always autobiographical, usually spicy.

"Valentine's Day," although right in the 1964-65 season groove, has several distinctions. It was the very last program to find a place in the upcoming schedules of the three networks. And the leading role is being played by Tony Franciosa, a sensitive young performer who built a fine reputation in serious roles on Broadway and screen.

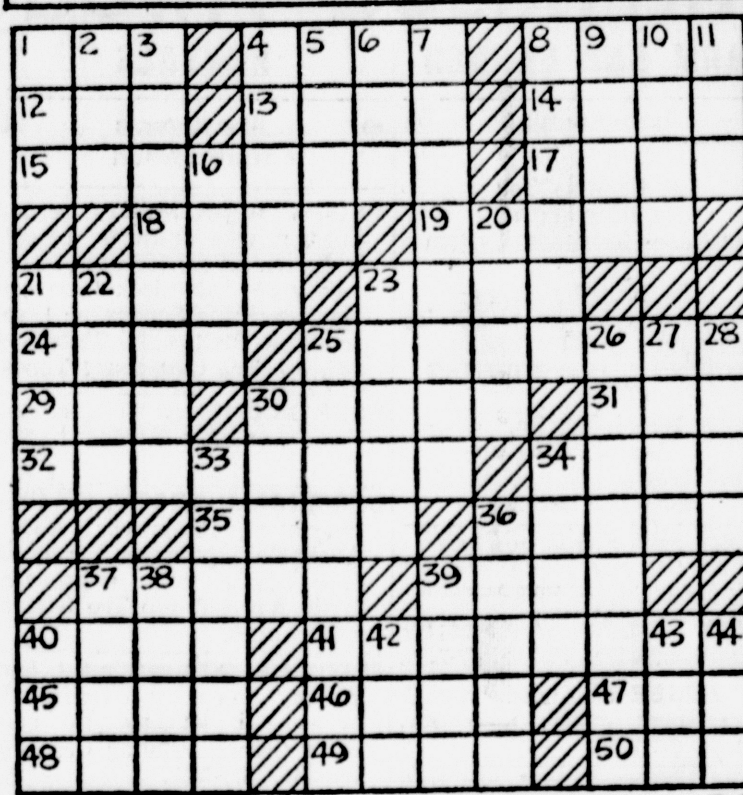

### TO SPOOF TOUR

Red Skelton's first CBS show of the season will be taped in London — and at least part of it will spoof last season's tour of London with Elizabeth Taylor.

Television stars are usually presented with gifts of the sponsor's product, from cars to cases of toothpaste. Walter Brennan, however, has been loaned a private plane, complete with pilot, for the season by the happy manufacturer of the craft he uses playing a big businessman in his new ABC series, "Tycoon."

## WILL ACT ON MILITARY PAY BILL TODAY

By STANLEY MEISLER

WASHINGTON (AP) — A bill which would speed pay raises to every member of the armed services except draftees and lowest-ranking enlisted men is expected to win final congressional approval today.

Little debate is expected as the House takes up the bill. House passage would complete congressional action on the measure and whisk it to the White House.

President Johnson is prepared to sign it quickly so the \$207-million pay raise can begin Sept. 1.

### SECOND PAY RAISE

For most servicemen and servicewomen, the pay raise would be the second in a year. Congress enacted a \$1.2-billion raise last year, putting it into effect Oct. 1.

All controversy on the bill evaporated when Rep. Carl Vinson, D-Ga., chairman of the House Armed Services Committee, decided to call it up under a special procedure known as suspension of the rules, which requires a two-thirds vote for passage.

Under this procedure, the bill may not be amended. By bringing it up this way, Vinson assured that the bill, which is identical to the one passed by the Senate, can go directly to the White House without entangling it in a compromise conference between the two bodies.

### DEFEAT AMENDMENT

During Armed Service Committee deliberations, Rep. Richard S. Schweiker, R-Pa., tried without success to amend the bill so it included pay increases for the draftees and lowest-ranking enlisted men as well as the others. This was defeated by a 21-9 vote.

The bill would provide these increases:  
1. A 2.5 per cent increase for all officers and enlisted men with more than two years of service.  
2. An 8.5 per cent increase for all officers with less than two years of service.

### RETURNS FROM HOSPITAL

## Worry of FALSE TEETH Slipping or Irritating?

# RATES REDUCED AGAIN FOR ELECTRIC HOME HEATING AND ALL-ELECTRIC LIVING!

In the past seven years, most other living costs have gone up . . . but not electricity! Electric rates for home heating and all-electric living continue to come down! In fact, there have been three big rate reductions since 1958, amounting to an average of 23.5%!

This present reduction saves electric home heating customers about the equivalent of one month's budget bill. As far as you are concerned, this means that it's now easier and more practical than ever to give your family all the advantages of electric heat and all-electric living. There's never been a better time to make the change to truly modern living, by going all-electric.

Many of your friends and neighbors are already getting the benefit of this new lower rate. Why not join them? Call your nearest Metropolitan Edison Company office to find out how little electric heat will cost for your home.

## \$14,000 GIFT IS REJECTED

WASHINGTON (AP) — A member of the House Banking Committee was offered—and rejected—a \$14,000 worth of bank stock as a gift, committee Chairman Wright Patman said today.

Patman mentioned the purported incident, without giving names, in a speech prepared for delivery in the House. He said: "One clever means of anti-public action by the bankers' lobby is as subtle as a wart on a movie actress' nose. It takes the form of offering a congressman bank stock either free or at a cost greatly under the market value."

"A member of my committee was approached and offered \$14,000 worth of bank stock as a gift. I am proud to report that he is of such calibre that he told the would-be donors to get out of his office and stay out—and in language unfit for this occasion."

Patman, a Texas Democrat, devoted most of his speech to an exposition of his view of the principles of money and credit and of his argument that the Federal Reserve System should be brought more directly under the control of the Treasury and national administration.

## 6 INJURED IN 2-HOUR RIOT

KANSAS CITY, Kan. (AP) — A two-hour riot broke out at the scene of a minor traffic accident early Sunday and five policemen and a Negro man were injured.

More than 1,500 Negroes fought police with bricks, bottles and guns until about 40 policemen dispersed the crowd with the aid of police dogs.

The fighting started when Harold McDaniel, a patrolman, and his dog tried to clear a path so an ambulance and fire trucks could reach the scene of the traffic accident.

Someone hit McDaniel in the back with a brick, knocking him down, and five or six men started kicking at him. His dog Stormy, fought off the mob. Other officers arrived and started using night sticks.
